

Recommended Flushing Pressures

Diameter	Wall Thickness	Operating Pressure (psi)		Flushing Pressure	Reel Length (Ft)	Reel Weight (lbs)
		Min	Max	Max (psi)		
5/8"	15 mil	4	15	35	4,000	63
7/8"	15 mil	4	15	25	3,000	66
1-3/8"	15 mil	4	15	20	2,700	87

- Maximum flushing pressure on all diameters should not be sustained for more than 60 minutes
- Reference Aqua-Traxx Design Manual for proper drip tape flushing technique
